

C# Software Engineer (21-36)

Location: Belgium

About this job:

As a member of our software engineering team, we look for people who are passionate about solving business problems through innovation and engineering practices. Our experienced C# software engineer will work in a professional, fast-moving telecommunications environment, applying their knowledge and expertise to all aspects of the software development lifecycle. This is a great opportunity to develop your international career, as you will collaborate with people from various countries.

What you'll do:

- Design, write and test code of applications for a telecom platform, based on functional specifications.
- Optimize current processes with regard to performance and/or maintainability.
- Contribute to technical documentation.
- Take responsibility for project-based tasks focusing on any specific development stage.

About you:

- University degree or college diploma in computer science or telecommunications and/or equivalent experience
- 4 years minimum experience developing in C#; including RESTful services, WCF (SOAP), gRPC preferred; Git as source version control, TFS preferred.
- Preferred experience with Docker and/or Kubernetes and with real time or near real-time high-volume telecom IT systems.
- Experience using Agile methodologies
- Strong understanding of quality, security and data protection standards
- Hands-on knowledge of latest's .NET Framework/Core versions in C#.
- MS SQL Server DB knowledge, experience with EFCore is a plus.
- A good understanding of modern software design and development methodologies (e.g., OO, IoC, event driven, multi-threading)
- Strong analytical and problem-solving skills with ability to break down the complexity and come-up with creative solutions (thinking out of the box)
- Ability to work well both independently and within a team; eagerness to learn
- Fluent oral and written communication skills in English and Dutch.

Do you want this job, and do you have the required skills and experience?

Then we invite you to send your resume/cv and cover letter, both in English, to Recruiting@Pareteum.com. Please include the job number and title in the subject line of your email.
